

## IN FAVOR OF PROGRESS

Annual Report of Street Supervisor Condie.

## WHAT DEPARTMENT COSTS

The Work Accomplished in the Past Year.

Some Improvements Strongly Urged and Many Valuable Recommendations Made.

Peter S. Condie, Superintendent of Streets and Irrigation, yesterday filed his annual report for the year 1903 with the Mayor. The report is thorough in every detail, and aside from the recommendations that are made contains some valuable information that has never before been made public. The expense of the street department for the year amounted to \$42,215.56, and that of the irrigation department \$21,338.46, making a total of \$63,554.02 for both departments. This amount, less \$362.15 for work and material furnished other departments, leaves the net cost of the street and irrigation department at \$63,191.87. The total cash receipts of the department from poll taxes and other sources amounted to \$1272.70.

## FLUMES AND BRIDGES.

During the present year \$76 new flumes and twenty-four new bridges were built and 483 flumes and 200 bridges were repaired, which, with the building of twenty-four new headgates, cost the department \$7479.97. The poll tax collections for the year in cash and labor amounted to \$11,196. This amount would have been larger had it not been for the decision rendered in the city court declaring the poll tax ordinance to be invalid. The cost of maintaining and cleaning the streets of the paved districts of the city was much greater than the previous year, owing to the fact that the paved area was increased one-third during that year. Mr. Condie recommends the paving of the streets immediately surrounding the city and county building for the reason that the joint building is daily visited by throngs of people and is one of the principal attractions to tourists, who from surrounding conditions receive their impressions of the progress and modernity of the city. The recommendations of the Street and Irrigation Supervisor are as follows:

## FAVORS PROGRESSIVE POLICY.

First—That the paving district be extended six blocks, to provide for the paving of Fourth South street from West Temple to Second East streets, and that portion of Second East, Fifth South and State streets immediately adjoining the city and county building.

Second—That the policy of substituting stone cross walks for gravel crossings at street intersections be continued, and that liberal appropriations be made for this purpose.

Third—That two dozen additional receptacles for waste paper and garbage be placed on the streets in the business district.

Fourth—That a section at least twenty rods in length be added every year to the brick conduit in the Jordan and Salt Lake canal, thus eventually entirely replacing the wooden fluming with brick conduit.

Fifth—That the old "White bridge" over the Jordan river, on North Temple street, be thoroughly overhauled and repaired or replaced by a new bridge, to remedy the present unsafe condition.

Sixth—That a new wagon and passenger bridge be constructed over the Jordan river on Eighth South street, the old one having been used for over thirty years and the traffic thereon is very great.

Seventh—That in view of recent decision of the court no further permits be granted for the construction and operation of railroad switch tracks on the public streets for the accommodation of private parties.

Eighth—That the railroad companies be required to place gates or flags at street crossings where their lines are operated, or in lieu thereof that the speed of railroad trains within the city be limited to eight miles per hour, as formerly. Some such action is imperative for the public safety, as several narrow escapes from frightful accidents or death have recently occurred, owing to the present careless methods.

Ninth—That State street from Fifth South to Tenth South streets be graveled and placed in good repair. This street, being the leading highway between the city and the county, should be macadamized, but as a matter of emergency graveled will suffice for the present.

Tenth—That the dumping in City Creek aqueduct on North Temple street be thoroughly overhauled, and repaired from Sixth West to Ninth West streets.

## A Guaranteed Cure for Piles.

Itching, Blind, Bleeding or Protruding Piles. Your druggist will refund money if PAZO OINTMENT fails to cure you in 6 to 14 days. 50c.

## COIN OR TRAIN WRECKS

## Blackmailers Threaten the Southern Pacific.

Fresno, Cal., Jan. 28.—For the last week Fresno has been flooded with Pinkerton and railroad detectives, who are looking for an anonymous letter writer, who declared that unless the Southern Pacific paid him \$10,000 he would wreck every train from Stockton to Los Angeles.

Two letters addressed to the "Manager of the Southern Pacific company" were mailed in this city, containing the above threat. The time in which the wreck would occur was placed at from the 14th to the 20th inst., and later continued to the 27th.

The railroad company has its track patrolled with armed men between Stockton and Tehachapi.

NEARLY \$2,000,000 FOR DIPLOMATIC SERVICE

Washington, Jan. 28.—The diplomatic and consular appropriation bill was committed today by the House Committee on Foreign Affairs and ordered reported. The measure carries a total appropriation of \$1,996,000, an increase of \$235,000 over the appropriation for the present year.

## For School and Play Time.

DESIGN BY MAY MANTON.

Pretty aprons are always attractive and are desirable from the standpoint of appearance as well as of utility. This one is made of white lawn with the bertha of tucking, finished with insertion and frill of embroidery, but is adapted to all apron materials. Beneath the bertha is a shallow square yoke to which the apron is attached and when a simpler effect is desired bertha and sleeves can be omitted, the neck and arms-eye edges being finished as shown in the small cut. The quantity of material required for a girl of 10 years of age is 3 yards 36 inches wide with  $\frac{3}{4}$  yard of tucking for bertha. A May Manton pattern, No. 4620, sizes 6 to 12 years, will be mailed to any address by the Fashion Department of this paper on receipt of 10 cents.

Send to .....

Pattern No. .... (Ten Cents Inclosed.)

As orders are filled from the East, it will require about 10 days from receipt of order to receive patterns.

## RUNS IN THE FAMILY.

Wife of a San Francisco Candy Maker Suicides With Gas.

San Francisco, Cal., Jan. 28.—Mrs. S. A. West, wife of J. W. West, a candy manufacturer, committed suicide last night by turning on the gas. Her dead body was found today in her apartment. She was in ill health and had frequently threatened to kill herself.

A short time ago her husband, J. W. West, dropped dead on the street, and a few weeks later the daughter, Grace Clara Perkins West, ended her life in a local restaurant. Mrs. West had intimated recently that she had been robbed of her money and some property in Denver. A letter from John Sullivan, Chief of Police of Seattle, was found in her apartment, saying:

"If you will send me full particulars regarding this man Rubenstein I will do what I can to help you."

It has been learned that Mrs. West had made four previous attempts at suicide. Two roomers in the house where she died were nearly asphyxiated by the escaping gas.

## Murder Suspect Released.

Louisville, Ky., Jan. 28.—Harry Behr, who was arrested yesterday as a suspect in the Schaefer murder case, was released today upon assurances from the chief of police of Memphis that Behr knew nothing of the crime.

## CONSTIPATION

"For over nine years I suffered with chronic constipation and during this time I had to take a dose of cathartic every 24 hours before I could have an action on my bowels. Happily I tried Cascarets, and today I am a well man. During the nine years I used Cascarets I suffered untold misery with internal piles. Thank you I am free from all that this cathartic. You can use this in behalf of suffering humanity."

## AN OPEN LETTER

TO THE PEOPLE OF SALT LAKE CITY.

From Druehl &amp; Franken, Our Well-Known Druggists.

To Whom It May Concern: Of late there has been a good deal of discussion in Salt Lake City in regard to advertised medicines and their value—the papers are full of them.

We want to say to every man, woman and child in Salt Lake City that we believe the most valuable preparation of cod liver oil—the best tonic reconstructive, health restorer and strength creator—we have ever sold in our store is Vinol.

Vinol is not a patent medicine. It contains no injurious drugs, and it actually does contain all of the medicinal curative elements taken from fresh cods' livers, but without a drop of oil to upset the stomach and retard its work, and, moreover, it is delicious to the taste.

Vinol acts first upon the stomach, tones up the digestive organs, creates an appetite, purifies and enriches the blood and strengthens every organ in the body to do its work as nature intended.

Vinol is recognized throughout the world as the greatest strength creator for old people, weak, sickly women and children, nursing mothers and after a severe sickness.

Vinol cures hacking coughs, chronic colds, bronchitis and all throat and lung troubles. Unequaled to create an appetite and to make those who are too thin fat, rosy and healthy.

Vinol is sold everywhere on a positive guarantee that, if it does not give satisfaction, the entire purchase money will be refunded.
